Specifications

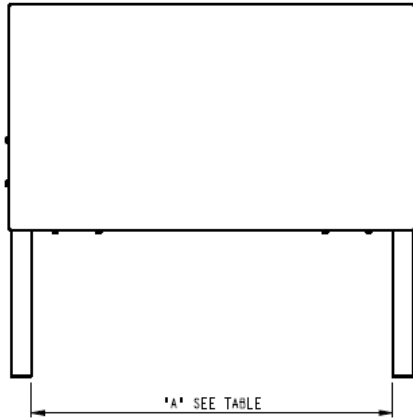

General: The Merco CrispyMax™ Rack is designed to fit around a Merco CrispyMax™ Crisp & Ready Serving Station on your work surface. It provides extra shelf space above, which is perfectly designed to support a Merco holding cabinet (see back for suggested sizes). Available in four sizes, the Merco CrispyMax Rack is sure to help organize any kitchen work area.

Construction: The Merco CrispyMax Rack features stainless steel construction for exceptional durability, aesthetics and cleanability. Two support legs surround your CrispyMax to position on your work surface. Top shelf and bracing are 18 gauge stainless steel. Side brackets are 14 gauge stainless steel. Channel legs and vertical tubing are 16 gauge stainless steel. Rubber feet protect your work surface. Maximum weight for top of shelf: 200lb (91kg).

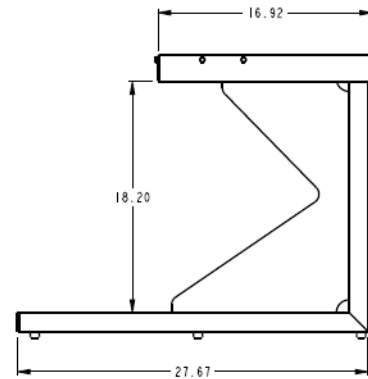

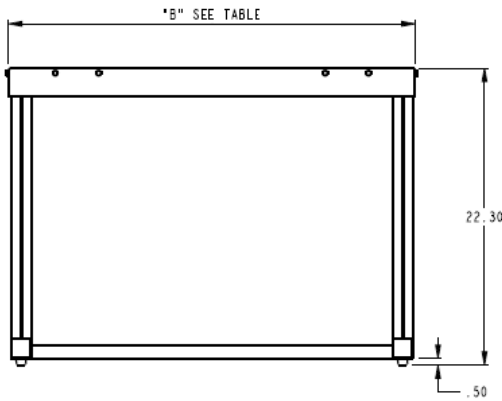

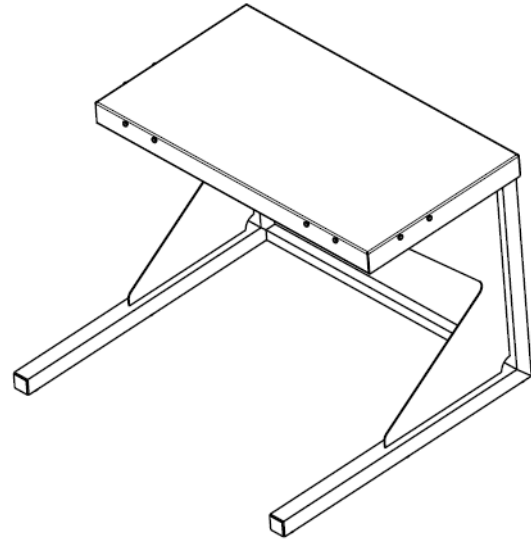

Custom Options (minimum order quantity required): Because no two kitchens or foods are exactly alike, we can accommodate with a custom solution to meet your needs. Contact your Merco customer service representative for details.

CrispyMax™ Rack
