KITS FOR MAKING CHOCOLATE TUILES & DISCS

Kit consists of a perforated plate and a chocolate container/shuttle. To be used on a "guitar" pvc sheet or transfer sheet.

HOW TO USE

1. Place the plate Width -wise on the 1st third of a "guitar" PVC sheet.
2. Position the shuttle at one end of the plate and fill with chocolate.
3. Slide the shuttle to the other end of the plate - as it moves, chocolate fills the perforations.
4. Lift the base and place it on the 2nd third of the sheet.
5. Do the same thing twice more to cover the entire 23 3/4" x 15 3/4" sheet.

Chef's Tip: Place the kit in oven at 86°F/95°F before use to avoid the chocolate solidifying too quickly in contact with the stainless steel.
