

low cost deterrent to impulse thefts

AMCO® SECURITY MODULE

NSF

Optional AMCO® Wine Rack fits perfectly into module.

Two Security Modules fit side-by-side on 48" long shelves.

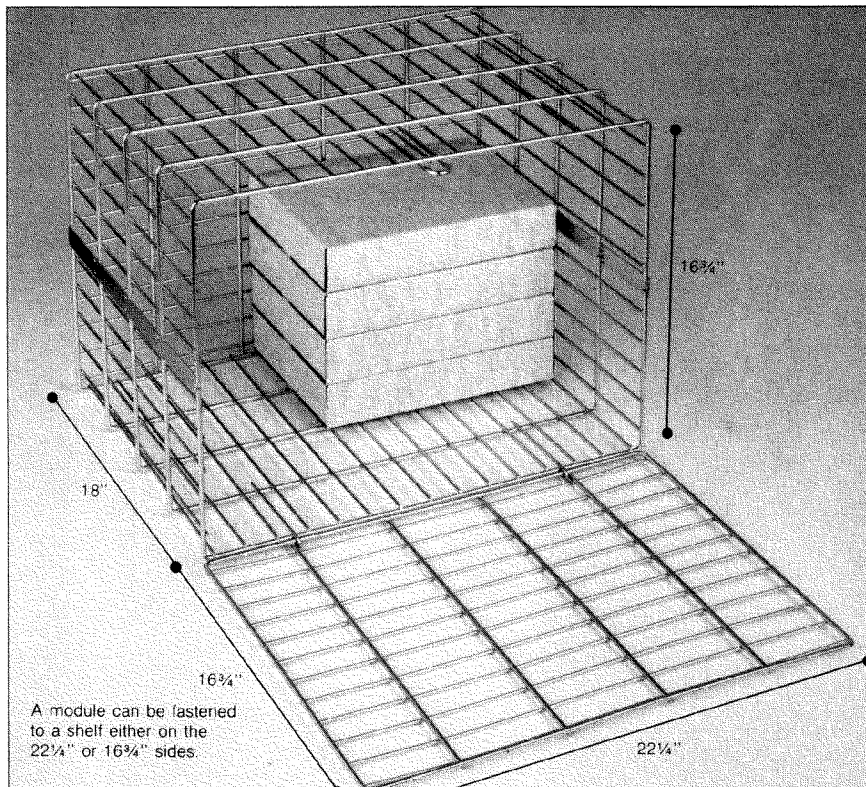

Use alone or quickly attach to wire shelving

Just think of the many items which "mysteriously" disappear: serving pieces, linen, wines and liquors, food stuffs, etc. Now you can halt those losses with an AMCO Security Module. Made of heavy gauge wire, the module can be easily installed onto any brand of wire shelving. It is perfect for walk in refrigerator use as well as dry storage areas.

A large access door swings open and then can be securely padlocked. Modules can be installed side by side or atop each other for greater secure storage capacity. AMCO Security Modules are so inexpensive, you'll want to order several. Zinc Protoxy finish. Weight 21 lbs.

Model SMOD1824.

AMCO® SECURITY MODULE
