

Touchless Sauce Dispenser | TSD

TOUCH-FREE SAUCE, PERFECTLY DISPENSED EVERY TIME

The Touchless Sauce Dispenser, TSD, by Antunes offers foodservice operators hands-free dispensing for thick or thin sauces. Designed to maximize customer and employee safety as well as ease of use, the TSD takes mess and cross-contamination out of the equation for easier and safer sauce dispensing.

By simply placing a cup under the nozzle, the user can quickly get the sauce dispensed in a clean and preset amount without the need for manual hand pumps and sauce packets.

Touchless Dispensing

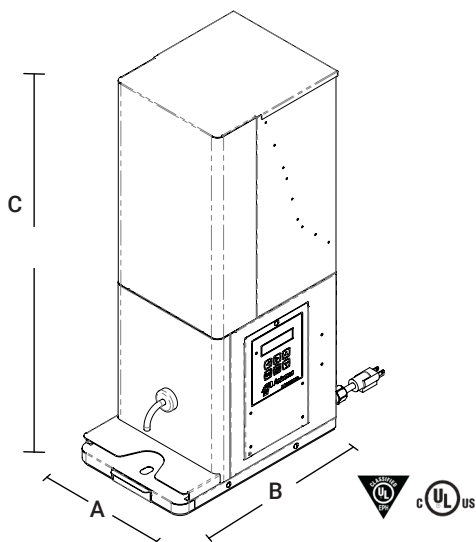

Dispensers activate when sensors detect a cup under the nozzle and fill to a preset amount

Drip-Free

Pull-back technology means drip-free dispensing every time.

Touchless Sauce Dispenser | TSD
