Notes & Details

This commercial hot plate features six powerful burners with a combined output of 180,000 BTUs, ideal for meeting high-volume culinary needs. Constructed from high-quality stainless steel, it is highly resistant to heat and rust, ensuring long-term durability. Each burner is independently controlled for precise heat management, while the heavy-duty cast iron grates offer strong support and stability for cookware. The unit is easy to clean, with a removable tray for capturing food crumbs and excess oil. Adjustable stainless steel legs and compatibility with both natural gas and propane make this hot plate perfect for use in restaurants, cafeterias, and food trucks.
