Notes & Details

The Hakka 10 Qt commercial mixer is designed for efficiency and durability, with a 10 Qt capacity and a powerful 400W motor. Operating at 404/225/125 RPM, this gear-driven mixer offers three speeds to accommodate various mixing needs. Its robust construction features a hardened steel worm and alloy bronze worm gear for reliable power transmission. The mixer comes equipped with a safety guard that stops the motor immediately if lifted during operation, ensuring user safety. Additionally, it includes a stainless-steel wire whip, flat beater, dough hook, and mixing bowl, all made of stainless steel for easy cleaning and longevity. The ergonomic bowl lift handle simplifies loading and unloading, while the sturdy base with nonskid feet keeps the mixer stable during use, making it a valuable addition to any commercial kitchen.
