Hakka 10 Qt Commercial Dough Mixer with Food-grade Stainless Steel Bowl, Security Shield & Timer(DN10)

Technical Data

Length	28.5"
Width	13"
Height	24.6"
Net Weight	1546 LB
Gross Weight	180 LB
Bowl Rotating Speed	19 RPM
Bowl Dimensions	12" x 8"
Material	Stainless Steel
Voltage	110 V
Power	400 W

Features

- Large Capacity: 10 Qt bowl can mix up to 8.8 lbs (4 kg) of dough, with all food-contact parts made from food-grade stainless steel.
- Dual Rotation Design: Features a 19 r/min bowl and 193 r/min hook for improved dough elasticity and even mixing.
- User-Friendly Controls: Simple buttons and knobs, including a waterproof on/off switch, a 30-minute timer, and an emergency stop for easy operation.
- Safety Features: Secure shield prevents injury and shuts down the machine if not closed properly, with nonslip feet for stability.
- Versatile Application: Ideal for home kitchens, restaurants, bakeries, and more, suitable for mixing creams, eggs, fillings, and dough.

Notes & Details

The Hakka spiral mixer boasts a 10 Qt capacity bowl, allowing you to mix up to 4 kg (8.8 lbs) of dough at one time. All food-contact parts, including the bowl, hook, and rod, are made of food-grade stainless steel, ensuring they are rust-proof, corrosion-proof, and easy to clean. Featuring a dual rotation design with a 19 r/min bowl and a 193 r/min hook, this mixer simulates the manual kneading process for more evenly mixed dough. Simple buttons and knobs, including an on/off switch with a waterproof cover and a timer knob for setting up to 30 minutes, make operation effortless. The emergency stop function adds to the safety features, which also include a secure shield to protect hands and automatic shut-off if the shield is not tightly closed. Non-slip bottom feet ensure stability during use. Ideal for home kitchens, restaurants, bakeries, pizzerias, and breakfast shops, the Hakka dough mixer is perfect for mixing creams, eggs, fillings, and other dough operations.
