## Wood-Fired Oven FW150 Morello Forni

### FLUE CONNECTION

All ovens are provided with an exhaust flue collar  $\frac{1}{2}$ " or  $2\frac{1}{2}$ " in height and 8" or 10" nominal diameter depending on model. The flue collar ( $\text{ØH}$ ) is located on oven top to provide a secure connection to the chimney. The oven flue collar is designed to be connected to chimney listed to UL-103HT. When working on gas only ovens, the oven is suitable for connection to Type B Gas Vent when used with the draft hood. When burning wood, an independent flue evacuation system is required.

### ELECTRICAL CONNECTION

Verify the power supply has the same rating as the oven.

### AIR SUPPLY

These ovens require make-up air to replace combustion air and excess air taken out by the flue. Always check for adequate openings to allow required make-up air flow in. Check table included in operations manual.

Model/ Specifications	Cooking Time	
	Capacity	(12) x 11"
FW150 (59")		
Individual Pizza	2 ~ 3 minutes	
Pan Pizza	4 ~ 6 minutes
