

Flav-R-Savor® Heated Air Curtain Merchandisers

Models: FS3HAC-2426, -3026, -3626, -4226

The newest model of our patented Flav-R-Savor® Heated Air Curtain Merchandisers has no front doors, which allows your customers easy access to fresh hot products. Heated air at the front of the cabinet is forced downward, forming a "curtain" of heated air. The heated air is then drawn toward the rear of the cabinet, warming each shelf gently and evenly. Hold times of a cabinet with the accessibility of a merchandiser. Perfect for wrapped or unwrapped food product.

Standard features

- The air temperature range is 70° - 175°F (21° - 79°C)
- Designer powdercoat finish inside and outside for an uniform and sleek look to compliment any environment
- LED lighting on top front and sides, to create balanced lighting which showcases food product
- Removable shelves can be installed to be slanted or horizontal, with removable sign holders on each
- Easy to use digital controls
- Front crumb tray lifts and pivots, and removable glass sides make for easy upkeep
- FS3HAC-2426, -3026 come with one swing-out left hinged rear door, three removable shelves with sign holder in front, crumb tray, 4" (102 mm) legs and 6' (1829 mm) cord and plug
- FS3HAC-3626, -4226 come with sliding glass rear doors, three removable shelves with sign holder in front, crumb tray, 4" (102 mm) legs and 6' (1829 mm) cord and plug
