Specifications

WRC-2 Model Double Waste Receptacles are constructed of 16GA type 300 series stainless steel top. Top has 2" backsplash and (2) cutouts, one for trash and one for recyclables.

Top & inner cabinet has partition to separate the sections. Cabinets base has a partition for separation and tracks on the bottom to secure plastic trash cans from moving around.

Overall size is 19" Wide x 40" Long x 42" High. Unit mounted on 4" casters, (2) with brakes. Body & Double pan hinged doors are constructed of 18GA stainless steel with pull handles & magnetic latch for easy open/close.

Product Guide

All stainless steel construction makes this unit durable and easy to clean. Custom sizes and various waste openings makes this unit easy to customize for any application. Includes (2) plastic waste cans.
