Product Description:

The Empura E-HI1836 is a full height heated holding cabinet with a sturdy aluminum construction, (36) 18" x 26" pan capacity, and manual temperature controls. This heated holding cabinet is insulated to help preserve the internal temperature and the clear door allows the operator to quickly view what is inside. This model stands on 5" casters, the front two of which have locks to help prevent unintentional movement and help keep the unit steady.

Intended For Commercial Use Only. Empura assumes no liability for component failure, factory defects or any other damages for units installed in non-commercial foodservice or residential applications.

About Empura Heated Holding Cabinets:

Empura Heated Holding Cabinets are an economical choice when you are looking to update or expand your kitchen's heated holding capacity. Sturdy and durable aluminum construction, high pan quantity capacities, and energy saving insulation make these holding cabinets a dependable option for business owners. You can count on the Empura Heated Holding Cabinets to keep your product fresh and stored at the proper temperature for safe serving.
