Notes & Details

The commercial coffee urn is crafted from high-quality stainless steel, offering durability, corrosion resistance, and easy maintenance. With its sleek, industrial design, it's perfect for any event and ensures a professional, impressive presentation. The urn features rapid brewing capabilities, producing up to 65 cups of coffee at a rate of one cup per minute, with a reusable stainless steel filter for easy filling and cleaning. An integrated coffee level observation window allows you to monitor water levels, making it easy to know when a refill is needed. The insulated design keeps your coffee hot for hours, ensuring optimal flavor and a fresh-tasting brew every time. Additionally, the drip-free two-way faucet allows for easy pouring, whether you're serving one cup at a time or continuously, without spills. Ideal for offices, cafes, schools, and large gatherings, this coffee urn also includes a cool-touch handle for easy portability, so you can serve fresh, hot coffee wherever it's needed.
