Specifications

KNC Model Knife Cabinets are constructed of 18GA stainless steel type 304. Double pan hinged door is 18GA stainless steel. Cabinet has louvers on each side for better air circulation. "T" Handle with lock protects the chef's special knives.

Inside cabinet there is a knife holder, which holds up to 10 knives & 2 sharpeners. Cabinet has sloped top. Integrated pull handle on the knife holder allows for easy access to knives. Back of cabinet has holes for mounting directly to the wall. Overall size is 6" Wide x 15½" Length x 26" Height

Product Guide

The knife cabinet can be used in kitchens to protect the chef's special knives. Unit is easy to mount on to wall. Lightweight and easy to position anywhere.

Pair with IMC's Model #UVC Cabinet to create a system for sanitizing & storing knives efficiently.
