

General Information

Project Name: _____

Consultant: _____

Item #: _____

Model #: _____

Quantity: _____

Model #SQ-ADA

Specifications

SQ Model Stainless Steel Gratings are constructed of 12GA 1" high type 300 series stainless steel bar, set in vertical position with banding on all four (4) sides forming a closed grid.

Top surface of grating is custom serrated in both directions providing complete anti-slip surface. Grating is connected by (2) 1/2" Type 300 Series stainless steel rods, with 1/2" clearance between each bar, (3) rods over 15" wide.

Notches on long bars eliminate water build-up between grating and trough ledge. Bars are wedged together with end notches welded for safety.

Gratings are sized up to 20" long sections.

Product Guide

IMC Floor Trough Gratings are specially designed to provide sanitary carefree use to permit quick, efficient and thorough cleaning.

Rugged stainless steel construction, engineered to stand up under day-in and day-out abuse.

Floor Trough Gratings can be easily built to specific custom dimensions to fit the operator's special needs and requirements.

Our engineers would be delighted to put their experience and knowledge to work for you in planning the most efficient use of your space.

Options

- ☐ Custom Lengths
- ☐ Custom Widths
- ☐ Custom Grate Shapes (discuss with engineering)
