Shelf Dividers

FSD188FPS

Keep your shelves well organized and orderly with these 8" high dividers. Order by shelf depth for either 18" or 24". Shelf divider brackets fit securely over FPS-Plus™ shelf panels and can be easily removed when shelves need to be cleaned.

Specially designed C brackets accommodate the width and contour of our FPS-Plus™ shelf panels.

Post Clamps

FPSPC

Secure two units together for maximum strength. Green epoxy coated post clamps are constructed slightly wider apart to accommodate the gap between two FPS-PLUS™ Polymer shelving units.

"U" Shelf Clamps

FPSSH

Save time, space and money by using our "U" Clamp shelf connectors when multiple shelving units are required. These stainless steel connectors will combine shelving units in a variety of configurations, while eliminating the need for adjacents posts.

Assembly is quick and easy - no tools required. Remove the FPS-Plus™ shelving panels from your assembled unit, attach the "U" clamps to the shelving trusses and re-attached the panels. These clamps will accommodate the thickness of the polymer shelf panels with a friction fit.

Affix "U" Clamps to truss.

Secure second truss.

Snap on first panel.

Attach all panels.

FPS-PLUS™ Accessories

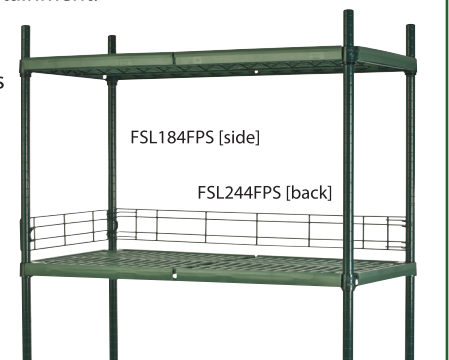

Item #	Description	Case
FSD188FPS	Shelf Divider 18" x 8" h (53.0 x 20.3 cm)	4

Shelf Ledges

Shelf ledges promote safety in your operation by keeping items from or falling off shelves. End and side ledges available and can be used in tandem for complete post-to-post containment.

All ledges are 4" high. Side ledges are available in 18", 21" and 24" depths; back ledges are available in 30", 36", 48" and 60" lengths.
