FRONT AIR CHASER FLOW

Electrical & Plumbing locations

1. SCXMD96R requires a floor drain. No evaporation pan available.
2. All Remote and Glycol Units must be run to a floor drain at time of installation.
3. The SCXMD merchandiser is designed for use in stores where temperature and humidity do not exceed 75 degrees F and 55% R.H. Locate away from direct sunlight, rapid air currents and extreme temperature changes. If rear doors are removed, temperature will not remain stable. Any adverse field conditions stated above will void warranty.

RPI in line with it's policy to continually improve it's product reserves the right to change materials and specifications without notice.
