Qty:

Date:

Approval:

Clivia 18" x 12" x 1/2" 6-Board Color-Coded Cutting Board System(00181205)

Technical Data

Length	18"
Width	12"
Height	0.5"
Net Weight	20.4 LB
Gross Weight	22 LB
Material	Polyethylene

Features

- High-density polyethylene construction will not crack, warp, chip.
- Material won't absorb juice, or odor and resists unsanitary cut-grooving without dulling knives.
- Non-skid design securely holds the board in place during prep.
- Non-porous surface easily wipes clean after every use.
- Set includes basic color boards for HACCP color-coding to help healthy.

Certifications

NSF Certification

Notes & Details

When using this high-density polyethylene cutting board, ensure it is placed on a stable, flat surface to prevent slipping during use. The non-skid design will help keep the board securely in place, but it's always good practice to apply gentle pressure while cutting to avoid accidents. To maintain the board's durability, avoid using excessive force or heavy objects that could damage the surface. The material is non-porous, so it won't absorb juices or odors, but regular cleaning after each use is recommended to maintain hygiene. Wipe the board clean with mild soap and water, and avoid abrasive cleaning tools to preserve its integrity. For HACCP compliance, use the color-coded boards appropriately to reduce cross-contamination. Keep the board in a dry, cool place to prevent long-term damage.

 **WARNING:** This product can expose you to chemicals including lead, which are known to the State of California to cause cancer, birth defects, or other reproductive harm . For more information, go to www.p65warnings.ca.gov.
