

* whip-it! Elite

Our newest, most innovative nitrous oxide cream chargers are lighter than ever!

NEW Aluminum Design

Others simply fall flat.

WHIP-IT! ELITE ADVANCE CLEANED ALUMINUM N₂O CHARGERS

Benefits of an Aluminum N₂O Charger

Approximately

20% More Volume means increased savings for your business

Improved Aeration
Creates products lighter in fat with less calories

Optimized Efficiency
Reduces the need to reload with more volume per charger

Overall Compatibility
with all standard whipped cream dispensers

Reduces Shipping Costs
Lighter case weight reduces shipping costs and workplace safety risks

Environmentally Friendly
Cleaner manufacturing process creates a more earth-friendly product

Clean Process
Advanced proprietary process completely removes oily residue from inside of charger

USA-Made Gas
Premium food-grade gas that meets all U.S. pharmacopeia specifications

This next generation cream charger contains more gas per unit than the industry standard, propelling approximately 20% more volume of whipped content. Made with 100% premium aluminum, **Whip-It! Elite** is much lighter, produces longer-lasting freshness and is more environmentally friendly than its carbon steel counterpart. Each **Whip-It! Elite Cream Charger** is meticulously inspected and certified to meet the highest quality standards, ensuring the best taste for your culinary and bartending needs.
