## HEAVY-DUTY 4-SERIES INDUCTION RANGES

912HDI-2900

924HDI-2900

### DESCRIPTION

Vollrath® Heavy-Duty 4-Series Induction ranges cook like gas, with the added benefits of induction. With enhanced temperature control and energy efficiency, these 2 and 4-hob units are a versatile, sleek complement to commercial kitchens.

These fully-redesigned ranges lead the industry in performance and efficiency with patented power operation, a wide range of defined settings, four customizable programs, and a temperature-control probe. Knobs make it quick and simple to dial in sensitive low-end temperatures for cooking sauces, milks, and chocolate or high-heat options for quick cooking.

One (for two-hob units) or two (for four-hob units) 30-amp power cord(s) is/are included. The 14-gauge stainless steel case and ceramic glass top clean easily with mild soap.

### AGENCY LISTINGS

CAN ICES-001/  
NMB-001

### CLEARANCE & REQUIREMENTS

- Induction-ready cookware must be used with these units; avoid aluminum pans with a metal disc on the bottom.
- Units require a minimum of ½" (1.3 cm) clearance on the sides and 1" (2.5 cm) at the back.
- Air intake and exhaust must remain unrestricted for proper operation.
- Minimum intake temperature must not be below 49 °F (9.44 °C) non-condensing while all kitchen appliances are in operation.
- Maximum intake temperature—as measured in the middle of the unit, 1" under the unit bottom—must not exceed 104 °F (40 °C) while all kitchen appliances are in operation.
- A dedicated circuit is required.

Due to continued product improvement, please consult [vollrathfoodservice.com](http://vollrathfoodservice.com) for current product specifications.

| 912HDI-2900 | 2- Hob Heavy-Duty Induction Range w/ Temperature Control Probe and Programs |
| 924HDI-2900 | 4- Hob Heavy-Duty Induction Range w/ Temperature Control Probe and Programs |
| Accessory # | Description                                                                 |
| 59951       | USB                                                                         |
| 59954       | Temperature-Control Probe with Pan Clip                                     |
| 59953       | Pan Clip only                                                               |

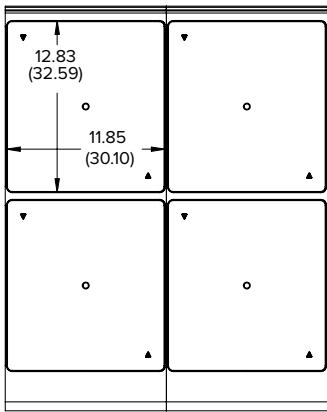

### FEATURES & BENEFITS

- 2900W-per-hob, 100-setting power provides precise cooking control.
- Expanded magnetic field emulates gas to allow uninterrupted heat while lifting or tilting pans to sauté or flip.
- Smarter, faster pan detection delivers continual heat when pans are removed from and returned to the cooking surface.
- Patented circuitry creates steady heat with no power cycling.
- Stainless steel framed hobs stand up to heavy use.
- Control knobs quickly dial in precise temperatures.
- Power-Level Mode offers gas-flame-like power from 1–100% of Watts.
- Cutting-edge temperature control operates in single-degree increments, 80 °F–450 °F (27 °C–232 °C) to enable exact, steady heat.
- Included Temperature-Control probe monitors front-hob food temperature and automatically adjusts to maintain that setting. Stocks and sauces can simmer for hours without boiling over. (Not for use as a thermometer.)
- 4 customizable programs with up to 3 stages of power or temperature and time enable results that are easy to set and repeat to reduce operator error and waste.
- Time to boil is 28% faster than gas and up to 19% faster than competitive ranges.
- Industry-leading 93% efficiency rating means more heat to the pan.
- Power-monitoring technology compensates for power fluctuations.
- Filter-less cooling system is reliable and easy-to-maintain.

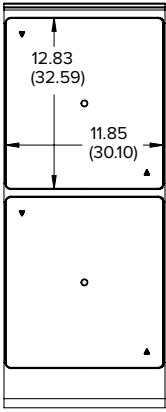

### WARRANTY

Models shown come with a Vollrath® 2-year warranty against defects in materials and workmanship. For full warranty details, please refer to [vollrathfoodservice.com](http://vollrathfoodservice.com).
