Product Description:

The Empura EHP-6 Gas Hot Plate is built for high-demand cooking with six high-power burners delivering an impressive 150,000 BTU heat output. Its durable stainless steel construction and sleek silver finish ensure longevity and style, while the robust cast iron grates provide excellent heat retention. Featuring manual temperature control, cool-touch chrome knobs, and precise brass control valves, it offers seamless operation. The countertop design, full-width crumb tray, and adjustable heavy-duty legs make it easy to clean, stable, and perfect for any professional kitchen setup.

Intended For Commercial Use Only. Empura assumes no liability for component failure, factory defects or any other damages for units installed in non-commercial foodservice or residential applications.

About Empura Gas Hot Plates:

The Empura EHP Hot Plates are durable and robust cooking appliances designed for versatile use in commercial kitchens. With sturdy stainless steel construction and powerful burners, these hot plates deliver consistent heat for everything from sautéing to simmering. Easy-to-clean surfaces and user-friendly controls make them practical for demanding environments. Whether used as a primary or supplementary cooking station, the Empura EHP Hot Plates provide reliable performance for professional food preparation.
