Notes & Details

The Hakka Commercial Meat Slicer, Model HLS-1650, features a powerful 1hp motor with a cutting speed of 50 ft. per second, making it optimal for heavy-duty use. Constructed with a full stainless-steel chassis, head, and worktable, this slicer ensures durability and long-lasting performance. It includes a sharp 65" long blade with 3 teeth per inch, capable of making precise cuts with maximum cutting dimensions of 8" x 7". The worktable, measuring 18.3" x 17.3", is perfect for use in supermarkets, meat markets, and meat processing plants. This countertop model is intuitive to operate, allowing for precise cuts on meats like beef or lamb. Built with a safety shut-off switch and blade guard, it ensures user safety. Operating at 120V, 750W, and 1 hp, this slicer combines power, efficiency, and safety for all your meat cutting needs.
