UVC
Knife Sterilizing Cabinet

General Information

Project Name: _____

Consultant: _____

Item #: _____

Model #: _____

Quantity: _____

Specifications

UVC Model Knife Sterilizing Cabinet is constructed of 18GA type 304 stainless steel, completely welded and polished to a brushed finish. Unique design door opening prevents ultra violet leakage. Double pan door is provided with latch and key for security. Equipped with a removable knife rack for easy cleaning.

Germicidal ultra violet sterilizing light is automatically energized when door is closed. When sterilization is complete, red pilot light shuts off and a green ready light indicates cycle completion. Unit is equipped with a 120V cord and plug.

Factory pre-wired unit is equipped with an 8 watt germicidal U.V. lamp, timer switch, indicator lights, knife rack and hooks. Door latches can be locked for security.

Product Guide

IMC Knife Sterilizer Cabinet uses germicidal UV to disinfect and purify knives and other kitchen tools.

The cabinet is designed to generate UV dosages in excess of 30,000 microwatts per square centimeter in the timed cycle and destroys 99.9% of microorganisms.

Use with cleaned and drying tools and knives only. Do not attempt to operate with door open.

Options

- ☐ **KEY** - Replacement Keys
- ☐ **UVMRD** - Mirrored Door
