IMC/TEDDY
DECADES OF FINE CRAFTSMANSHIP

MASR
Rack & Storage Cart

General Information

Project Name: _____

Consultant: _____

Item #: _____

Model #: _____

Quantity: _____

Specifications

MASR Model Rack and Storage Cart is constructed of 14GA Type 304 stainless steel. Top and bottom shelves are louvered for air circulation and are fully welded to leg posts.

Shelves are turned down 90 degrees and in 45 degrees for extra strength and safety.

The rack and legs are constructed of 16GA stainless steel tubing. Legs have 5" casters, (2) w/ brakes and are equipped with donut bumpers. (3) cross tubing with attached pegs are all stainless steel.

Unit ships fully assembled.

Product Guide

IMC Rack and Storage Cart is used to store mixer bowls, attachments, and other essential kitchen utensils.

The rack keeps your kitchen organized and clean looking. The pegs holds all your attachments while the shelves store your mixing bowls.

Unit is on casters to easily move to your work area and be moved out of the way when done for the day.
