Product Description:

The Empura 23 cu. ft. reach-in refrigerator delivers dependable, energy-efficient performance for commercial kitchens. Its stainless steel construction, self-closing solid door with a 90° stay-open feature, and three adjustable shelves provide durability and convenience. A bottom-mounted 1/3 HP compressor maintains a consistent 33°F to 41°F using eco-friendly R290 refrigerant, managed by a precise electronic control system. With a locking door, heavy-duty 4" casters, and ETL certification, this ENERGY STAR® unit is tested and conforms to NSF-7 standards, offering reliable & efficient refrigeration.

Intended For Commercial Use Only. Empura assumes no liability for component failure, factory defects or any other damages for units installed in non-commercial foodservice or residential applications.

About Empura Reach-In Refrigerators:

Empura reach-in refrigerators are built for the demands of commercial kitchens, featuring durable stainless steel construction and efficient, consistent cooling. Most models include solid swing doors with self-closing and stay-open functions, along with adjustable shelves for flexible storage. Using bottom-mounted compressors and eco-friendly refrigerants, they deliver reliable temperature control with strong energy efficiency. Empura units are tested and conform to NSF-7 standards & are ETL certified, providing dependable, professional-grade refrigeration.
