

KAILUA Adirondack Chair

This compact Adirondack is artisan-crafted made of high-density polyethylene lumber (HDPE) that blends classic comfort and style with lasting durability. Contoured back is angled for dining or reclining options, and smaller footprint works well in a variety of spaces. Familiar slat construction and broad arms provide enduring style, sturdy performance, and relaxation.

- Ample seat space with wide arms, sturdy legs, and supporting backrest
- Weather, moisture, and saline resistant with UV stabilizers that prevent color fading
- Condensed footprint enables versatility in a variety of smaller spaces like balconies
- Upright profile lends itself to dining or reclining
- Stainless-steel hardware won't rust or tarnish
- Quick assembly and made in the USA
