

mercoEco®

VISUAL HOLDING CABINETS

The MercoEco visual holding cabinet is a hot-holding solution designed to handle both crispy and juicy items with ease. Featuring radiant heat above and below each tray, these models ensure even, moisture-balanced warming without sacrificing texture. Compatible with industry standard 1/3 size, 2.5" deep, high-heat trays and available in multiple configurations with single- or double-sided access, the MercoEco is ideal for high-performance, space conscious kitchens.

RADIANT HEAT (TOP & BOTTOM)

Maintains consistent, gentle heat ideal for preserving both crispy and juicy food textures.

FLEXIBLE TRAY SEALS

Removable stainless-steel tray seals lock in moisture when needed or can be removed to preserve crispiness.

MODULAR, PASS-THRU READY

Durable stainless-steel construction with single or double-sided configurations and removable back panel for pass-thru use.

1/3 SIZE, 2.5" DEEP TRAY COMPATIBILITY

Designed to hold 1/3 size, 2.5" deep, high-heat plastic trays. (sold separately)
