

Super Erecta® Wire Shelving—Stainless Steel Stationary Units

Stainless Steel Shelving units are comprised of electropolished type 304 stainless wire shelves and type 304 stainless steel posts. The shelf has an open wire design that allows access from all sides and has mat ribs that run front to back for smooth product transfer. Each shelf has a heavy-gauge, all-welded type 304 stainless steel construction with longitudinal support trusses. On larger shelves, one or more longitudinal snake trusses provide added support. Stationary units support up to 2,000 lbs. (907 kg) evenly distributed per unit, while individual shelves hold 800 lbs. (363 kg) at lengths of 48" (1219 mm) or less and 600 lbs. (272 kg) when longer. Each unit features SiteSelect™ posts that have circular grooves on 1" (25 mm) increments. The posts are numbered every 2" (51 mm) and have double groove guides every 8" (203 mm) as a visual indicator during assembly. Shelving can be assembled easily without tools using patented tapered split sleeves. Shelves adjust at 1" (25 mm) intervals, and stainless steel leveling bolts adjust to ensure the unit remains stable on uneven surfaces. These units are NSF listed for all environments.

Features and Benefits:

- **Stationary Units:** Include stainless steel shelves and (4) posts under one easy-to-order model number.
- **Unique Design:** The open wire design of these shelves minimizes dust accumulation and allows free circulation of air, greater visibility of stored items and greater light penetration.
- **Durable Construction:** Super Erecta shelves and posts are constructed of heavy-gauge type 304 stainless steel.
- **Strong:** Stationary units hold a maximum of 2,000 lbs. (907 kg). Maximum weight capacity per shelf evenly distributed: (48" [1219 mm] or shorter = 800 lbs. [363 kg]; longer than 48" [1219 mm] = 600 lbs. [272 kg])
- **Versatile:** Super Erecta Shelf wire shelving can adapt to your changing needs. By using various accessories, hundreds of shelving configurations become possible.
- **Fast, Secure Assembly:** SiteSelect Posts have a double groove visual guide feature every 8" (203 mm), circular grooves at 1" (25 mm) increments, and are numbered at 2" (51 mm) intervals. A patented, tapered split sleeve snaps together around each post. Tapered openings in the shelf corners slide over the tapered split sleeves providing a positive lock. Shelf is assembled in minutes without the use of any special tools.
- **Adjustability:** Shelves can be adjusted at 1" (25 mm) intervals along the entire length of the post.
- **Shelf Ribs:** Run front to back, allowing you to slide items on and off shelves smoothly.
- **Shelf Accessibility:** Shelves can be loaded/unloaded easily from all sides. This open construction allows maximum use of storage cube.
- **Adjustable Feet:** Leveling bolts compensate for surface irregularities.
- **NSF listed for all environments.**
- **Never Collapse Guarantee:** Each Metro stationary shelving unit, add-on shelving unit, mobile shelving unit and Track Shelving System are backed by a 100% money-back guarantee against unit collapse.

{10.66} Super Erecta® Wire Shelving – Stainless Steel Stationary Units

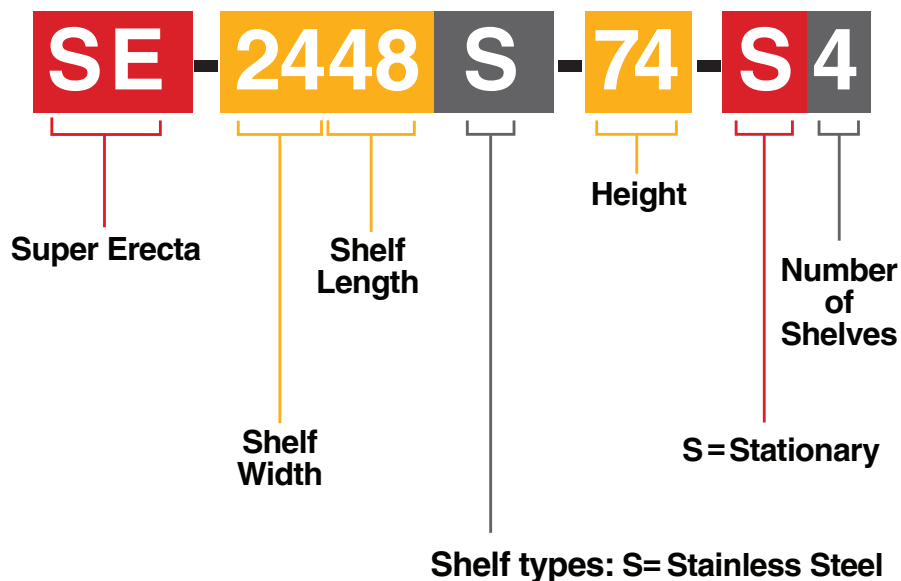

Material Specifications:

- **Wire Shelves:** Heavy-gauge, electropolished type 304 stainless steel.
- **Posts:** 18-gauge, 1" (25 mm) diameter, type 304 stainless steel tube, electropolished.
 - **Split sleeve:** high impact polystyrene.
 - **Post cap:** polypropylene.
 - **Post insert:** cast zinc.
 - **Leveling bolt:** type 304 stainless steel.
- **Temperature Range:** Continuous use from -20°F (-29°C) to 120°F (52°C).

Stationary Units: Consist of four or five stainless steel wire shelves and four posts.
