Stainless Steel Chicken Breeding Work Station with Side Table

This Stainless Steel Chicken Breeding Work Station is an efficient, easy, and fast breeding station for chicken and other foods. The unit includes pan storage, marinade handling components, and accommodation for a customer-supplied undercounter refrigerator.

Features:

- All welded stainless steel construction
- Two slide locations for 18" x 26" x 6" plastic dump pans.
- One runner guide for an 18" x 26" bun pan
- Removable marinade bracket mounted on the left-hand side.
- Includes a strainer pan for the marinade pan.
- Six stainless steel adjustable bullet-style feet.
- Kit Includes:
 - Half-size long 4" deep steam table pan
 - White 18" x 26" x 6" tub with clear breeding colander
 - White bussing box with lid
 - Clear 18" x 26" x 6" storage tub with clear lid
 - ½ size 6" deep spice pan

Benefits:

- Provides a dedicated workstation for breeding and food preparation tasks.
- Stainless steel construction supports durability in commercial foodservice environments.
- Multiple pan and tub locations help keep ingredients and products organized during preparation.
- Included strainer pan supports marinade handling applications.
- Compatibility with an undercounter refrigerator keeps product storage adjacent to the preparation area.
