Kleenware HTS-10 System: EV9799-10
HT-10 Replacement Cartridge: EV9799-22

APPLICATIONS

Commercial Dishwashers
Commercial Glassware Washers
Warewashing Booster Heaters

FEATURES • BENEFITS

Inhibits mineral deposits and provides corrosion protection
Extends the life of expensive foodservice equipment
Specially designed flow through head assures consistent, predictable product feed rates
Scale control system features HydroBlend™

Clear (amber shaded) high temperature bowl allows for hot water [up to 170°F (76.6°C)] feed installations

Transparent replacement cartridge containing HydroBlend™ scale inhibitor, which is effective up to 200°F (93.3°C)

INSTALLATION TIPS

The HTS-10 system must be used as a unit (i.e. high temperature bowl, head and cartridge).

Install vertically using the mounting bracket provided.

Use 3/4" water line and observe proper inlet/outlet water directions.

Some pressure relief mechanism should be provided downstream of the system to permit releasing line pressure when changing cartridges.

Deliming of equipment prior to installation is recommended, but not required.

OPERATION TIPS

Inspect HT-10 cartridge at least every six (6) months for replacement.

Pre-existing equipment scale may be dislodged and settle to the bottom of a chamber which can clog drain initially. Remove any settled scale.

In new installations, the HydroBlend™ usage rate may start high, but will reduce as existing scale is removed.

Replace HT-10 cartridge before HydroBlend™ compound is completely used up.
