Hakka 5 Qt Commercial Dough Mixer with Food-grade Stainless Steel Bowl, Security Shield & Timer(DN5)

Technical Data

Length	21.4"
Width	10.4"
Height	18.4"
Net Weight	66 LB
Gross Weight	77 LB
Bowl Rotating Speed	19 RPM
Bowl Dimensions	8" x 8" x 6"
Material	Stainless Steel
Voltage	110 V
Power	200 W

Features

- Durable Capacity: Features a 5 qt. stainless steel bowl that can mix up to 4.4 lbs (2 kg) of dough at a time.
- Auto Stop Failsafe: Includes an automatic stop feature that turns off the mixer when the timer hits zero for added safety and convenience.
- Steel Grated Lid: Allows for the addition of ingredients while mixing and prevents hands from entering the bowl, enhancing safety.
- Sturdy Construction: Built to handle heavy workloads with a sturdy base that ensures stability during operation.
- Commercial Efficiency: Designed for commercial use, requiring a 110V electrical connection and significantly improving kitchen efficiency.

Notes & Details

The Hakka dough mixer is designed for commercial applications, featuring a durable 5 qt. stainless steel bowl that can mix up to 4.4 lbs of dough at a time. Ideal for prepping pizzas, cookies, or bread, this mixer enhances kitchen efficiency. It includes an auto stop failsafe, turning off the unit once the timer hits zero, which is useful when employees are occupied with other tasks. The mixer has a steel grated lid that allows ingredients like flour to be added while mixing, without stopping the machine. This grate also prevents employees from sticking their hands into the bowl, enhancing safety. Built to handle strenuous workloads, the mixer's sturdy base ensures stability during operation. Requiring a 110V electrical connection, the Hakka dough mixer is a high-performing, durable solution for any commercial kitchen.
