Features

- **Durable Construction:** Made from heavy-duty 18 Gauge 430 stainless steel, this work table is built to handle daily use in both commercial and residential settings.
- **NSF Certified for Food Safety:** Meets strict health standards, ensuring a safe, easy-to-clean surface for food preparation and storage.
- **Space-Saving Design:** Features a galvanized undershelf for additional storage, perfect for organizing kitchen tools, cleaning supplies, and more.
- **Corrosion-Resistant:** Designed to resist corrosion, this table is ideal for environments where food, liquid, and frequent cleaning are required.
- **Versatile Applications:** Ideal for commercial kitchens, garages, laundry rooms, labs, and home use, offering practical storage for everything from appliances to office supplies.

Notes & Details

Before assembly, ensure that all parts are present and in good condition. The table is designed for indoor use only and should be placed on a flat, level surface to ensure stability. To maintain the table's corrosion resistance, clean it regularly with mild soap and water, avoiding abrasive cleaners that could damage the surface. The galvanized undershelf is designed for storage of lightweight to medium items; avoid overloading it to prevent damage. While the table is NSF certified for food safety, ensure proper sanitation practices are followed to maintain hygiene in food preparation environments. Always check that the table is securely assembled before use.
