INDUCTION BASE HEATING SYSTEMS

DuraTherm™ Induction Bases

Not All Plates Are Created Equal

Using Dinex plates is the best solution to offer premium food quality at the optimal temperature.

Smart: Features a built-in chip that relays information to the charger to get consistent and accurate pinpoint temperature every time; protects the base from over-heating.

Preserve Food Quality: DuraTherm base keeps hot food hot between 75 and 90 minutes without the risk of cooking or drying out the food for premium-quality meals.

User Friendly: Bases are cool to the touch for safety and are the lightest on the market for ease of use.

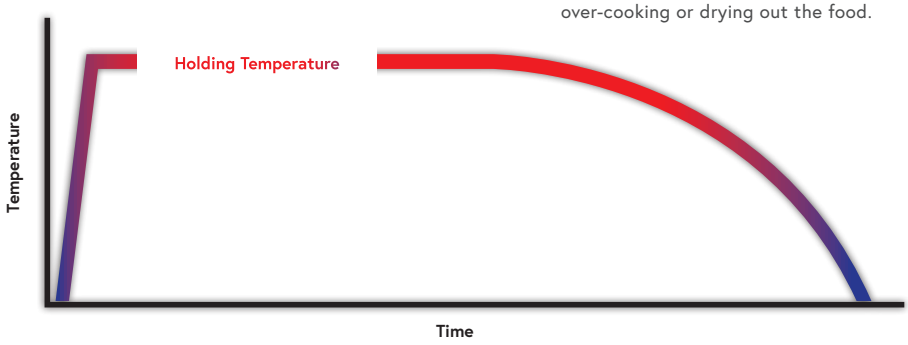

Durable: Bases feature a watertight construction; bases cannot be stacked due to higher peak temperatures and cannot be used in a microwave.

Efficient: Contains internal phase changing material that requires lower energy input to hold temperatures longer.

Peace-of-Mind: Two-year warranty; NSF listed.

Temperature Retention Over Time

DuraTherm keeps hot food hot without over-cooking or drying out the food.
