

TORTILLA MAKING

Made **Simple**

Providing restaurants innovative equipment to make authentic tortillas is what we do best.

See why we're changing the restaurant industry.

Ventura Flex TM-105

The first American-made tabletop corn tortilla machine, crafted for restaurants that demand the highest standards of freshness, quality, and consistency. Engineered for efficiency, it blends tradition with technology to deliver perfect tortillas—every time.

Save Time,
Save **Money**

Save 40 hours of labor per week. Pay off the machine almost four times over by the end of your first year.

Elevate
Quality

Adjustable sizes and thicknesses. Perfect consistency. Customize your tortillas to your unique vision.

Unmatched
Reliability

Engineered to surpass UL and NSF standards. Hassle-free cleaning. Responsive customer service.

Features

840 Corn Tortillas/hr

Adjustable Size & Thickness

Made in the USA

Fast Customer Support
